	12 <sup>th</sup>	TBD	SA	Christmas Dinner	Nagles	TBD	Location & Time TBD

1. City Park and Club rules state that you must have an AMA license to fly solo at the field
2. If you are new to the hobby, stop by on Wednesday evening for Instructor Night (see schedule). Experienced pilots will evaluate your plane for being airworthy and assist with developing your piloting skills.
- 3. When entering the field, please shut and lock the gate behind you. The same applies when leaving.**
4. To insure everyone's safety, please observe the No Fly Zone, keep your plane north of the runway. Never fly south of the taxi area, over or behind the shelter house.
5. Before flying, place you're AMA card in the Pin Box on the appropriate channel and pull the pin. The pin is to be placed in your transmitter antenna. Never turn your transmitter on, unless you are in possession of the Frequency Pin.
6. You can pull up to the fence to unload / load your equipment. When done, please park in the designated parking area.
7. When flying, please stand behind one of the designated pilot areas. Barriers are there for your safety.
8. For your safety, spectators should stand behind the fence
9. The field is available for all to enjoy, please pick up and discard your trash, obey the safety rules and be courteous to others. If someone is not complying with park rules, speak to them in a courteous manner. If the problem persists, call the Dayton Police 333-2677 or 911 if an emergency exists.

**Consider Joining the Dayton Wingmasters RC Club!**
